

Kevin Randolph

“I believe God made me for a purpose, but he also made me fast! And when I run, I feel his pleasure.” — Eric Liddell

I believe I have a dynamic purpose and calling on my life. As a young man, I have always wanted to add value to others lives through developing, nurturing and growing meaningful relationships with others. The desire to add value to other people’s lives led me into education. Education not only provides one’s students with knowledge, but it seeks to empower them both now and in the future. Education isn’t just an academic exercise that prepares one for a job or even a career. It’s much more than academic achievement. Education is an art and a science. It develops the intellectual, social/emotional, spiritual, moral and ethical domains. After nearly four decades as a Teacher, School Counselor and Social Worker, I can honestly say that I still love what I do; I love my students and families; and I love the fellow educators in my schools. I still love to encourage and advocate for my students, problem solve with parents and engage with multiple agencies to find the best outcome for our families. What I bring to this team is not only a passion for the work, a compassion for the students and a desire to deliver superior results; I also bring 39 years of a proven specialized skill set.

Experience:

Support Group Intervention
Grief
Trauma
Leadership
Success/Graduation Readiness
Conflict Resolution
Restorative Practices
Experience with At-Risk Youth in Alternative Schools
One to One Case Management
Group Intervention
